WATER MAIN WORK

N. 21ST STREET

PURCELLVILLE, Va. July 5, 2013 —

On Monday, July 8, 2013, the Contractor working on the Purcellville Green Townhome project along N. 21st Street will be installing a new water main in the vicinity of 310 N. 21st Street. Residents and businesses in and around this area may experience lowered water pressure and temporary discoloration in the water which will clear up after running the water for a short period. The Contractor will be utilizing flaggers to direct traffic in the appropriate direction through the work zone. Drivers are asked to be aware of work zones and to be alert for changes in traffic patterns where the work is being performed. This work schedule may be revised in the event of inclement weather or unforeseen conditions.

The Town of Purcellville, Virginia

Purcellville is an award-winning town of nearly 8,000 residents located in Loudoun County, approximately 30 miles west of Washington, DC. It has been honored for its green initiatives, most recently with the prestigious Siemens Sustainability Award for Small Communities. The Town has an elected Mayor and six Town Council members. Once a stop along the W&OD rail line, Purcellville has maintained its historic old-town feel through the restoration and maintenance of its many downtown structures, reflecting the Victorian architecture popular during the turn-of-the-century. Today, Purcellville is the economic hub of western Loudoun County and a popular weekend destination for antiquing, entertainment, farmer's markets and wineries. More info at www.purcellvilleva.gov.
